

Tower Laboratories, Ltd.

Analytical Method Development Chemist Montague, MI

Tower Laboratories, a pharmaceutical manufacturer in the effervescent business for over 39 years, is seeking an Analytical Chemist with experience in Method Development to complement the QC team in our Montague, MI facility.

Ideal candidate will be proficient in developing and validating new analytical methods with minimal supervision, as well as performing all phases of chemical testing of raw materials, in-process samples, and finished products for full integration and support of Tower Laboratories' business and operations.

Tower Laboratories is the premier effervescent product manufacturer in the U.S. We develop and manufacture over-the-counter medications, prescription pharmaceuticals, dietary supplements, personal care, beverage and household products. The company has been expanding over the last few years and prospects for continued growth are excellent with several new and interesting products currently in the development stages right now. Please visit our website: www.towerlabs.com.

Qualifications:

- Minimum 3 yrs. of proven success in developing and writing procedures and methodology and performing methods development and validation.
- Experience/knowledge in identifying, sourcing, and coordinating implementation of appropriate analytical instrumentation as part of the method development process.
- Excellent analytical and wet chemical techniques in support of chemical and manufacturing operations;
- Demonstrated proficiency with HPLC
- Demonstrated self-starter and independent worker with strong commitment to Quality and Compliance.
- Strong team player with ability to communicate effectively both verbally and in writing
- BS in Chemistry with Lab specialization

This medium sized company is headquartered in Centerbrook, Conn., and offers a friendly, dynamic working environment with a competitive benefit package including 401(k) with company match. *Tower Labs is a Socially Responsible employer and a great place to work!*
