### **POSITION SUMMARY:**

This is an experienced Machine Maintenance Supervisor position requiring hands on work and oversight of 10 Maintenance Technicians over 3 shifts in both Clinton and Centerbrook locations.

Responsible for the maintenance and repair of plant production and packaging equipment, including directing the activities of machine maintenance personnel. Heavy emphasis on minimizing line downtime and scrap rate while directing staff to support production associates to maximize Operational Efficiency.

Install, troubleshoot, repair and maintain equipment; Equipment/machinery includes high speed automated packaging lines with tablet presses and cartoners, mixers, blenders and various other production equipment.

Ideal candidate will have demonstrated leadership ability and possess the ability to think independently and effectively communicate ideas and opinions.

Perform all work in adherence to safety precautions, OSHA regulations and Good Manufacturing practices (cGMP).

### **QUALIFICATIONS:**

- Minimum 5 years industrial mechanic experience. Machine maintenance on high speed automated production equipment; packaging machinery or tablet presses highly desirable.
- Advanced degree in technical discipline (i.e. mechanical engineering) preferred.
- Comprehensive knowledge of mechanical principles and good working knowledge of electrical principles (PLC).
- Proven strong troubleshooting skills and a proactive problem solver.
- Proficient mechanical skills, such as working knowledge of shop equipment (lathes, mills, etc.).
- Excellent interpersonal and communication skills.

Salary commensurate with experience.

Complete benefit package.
