

**TOWER LABORATORIES, LTD.**

## **Facilities/Maintenance Manager**

[www.towerlabs.com](http://www.towerlabs.com)

Tower Laboratories is a leading effervescent product manufacturer in the U.S. We develop and manufacture over-the-counter medications, nutritional supplements, soft drinks and other consumer products on a contract basis. We are continually expanding our effervescent product base and currently have several new and interesting products in the research and development phase right now. We are a family owned company and have been in business for over 40 years.

### **POSITION SUMMARY & RESPONSIBILITIES:**

The Maintenance Manager is responsible for ensuring that all manufacturing operational equipment and facility support systems are maintained in optimal condition. Additional responsibilities for our Safety program.

- Direct and oversee the activities of maintenance personnel; train and develop staff to ensure they have the appropriate skillset to meet company needs
- Steer successful Preventive Maintenance and Continuous Improvement programs for the Maintenance Department
- Recommend process and equipment upgrades where necessary in coordination with the Engineering department; coordinate equipment installation with engineering.
- Responsible for planning budgets and managing capital expenses in support of Continuous Improvement initiatives
- Prioritize and coordinate building services and projects; secure and manage contractors, suppliers as necessary. Manage utilities costs and contracts
- Ensure compliance with federal and state environmental regulations regarding wastewater discharges, hazardous waste storage and disposal, and hazardous material storage.
- Ensure compliance with OSHA regulations (state and federal) safety policy development, safety training, maintaining the company Environmental, Health, and Safety (EHS) manual

### **QUALIFICATIONS:**

- Minimum 10 years' experience in progressively responsible management position within the consumer products or related industry.
- Proven track record in the maintenance and repair of high-speed automated production equipment and facility support systems.
- Proven track record in successfully managing capital projects from concept to completion.
- Comprehensive knowledge and understanding of environmental and safety regulatory compliance.
- Ability to read blueprints and schematics; proficiency in procedure writing.
- Strong mechanical aptitude.
- Excellent communication skills to foster teamwork with department heads and all plant personnel; strong leadership desired.
- Bachelor's Degree required; mechanical, civil or package engineering preferred.

This medium sized company is headquartered in Centerbrook, Conn., and offers a friendly, dynamic working environment with a competitive benefit package including 401(k) with company match. Tower Labs is a Socially Responsible employer and a great place to work!
