

## **Production Supervisor, GMP Facility**

**1<sup>st</sup> shift**

Clinton, CT

Tower Laboratories is the premier effervescent product manufacturer in the U.S. We develop and manufacture over-the-counter medications, prescription pharmaceuticals, dietary supplements, personal care, instant soft drink and other consumer products. Please visit our website to learn more: [www.towerlabs.com](http://www.towerlabs.com).

### **POSITION SUMMARY:**

Hands on Supervisory position responsible for the overall shift activities involved in the manufacturing of our effervescent products. Ensure that production requirements are achieved and operational efficiency is optimized and fully integrated with Tower Laboratories' business objectives. Heavy emphasis on safety, quality efficiency and promoting and ensuring current Good Manufacturing Practices (cGMP) compliance in all operational activities. Reporting to this position are approximately 30 employees on the production floor.

### **RESPONSIBILITIES:**

- Oversee shift operation; includes production areas of tableting and packaging lines, mixing/blending equipment and other production equipment.
- Monitor production areas to ensure each area has what it needs to run efficiently and efforts are focused on maximizing output of high quality product.
- Assist Operators with set-up of machines as needed; troubleshoot and assist maintenance personnel with repairs of machines and equipment.
- In collaboration with Production Manager and others, assist in training Operators as necessary in all aspects of machine operation, paperwork, safety and compliance with cGMP.
- Ensure all activities comply with cGMP; counsel and coach the importance of cGMP.
- Develop staffing plans to optimize production schedule in the most efficient manner.
- Provide leadership with regard to safety within the plant. Ensure appropriate training and direction is provided to maintain a safe work environment.

### **QUALIFICATIONS:**

- Min. 3 years of Supervisory experience in a manufacturing environment
- Demonstrated competency in machine/packaging operation
- Strong mechanical aptitude with excellent troubleshooting and problem solving skills
- Demonstrated communication skills to work effectively with all levels of plant personnel
- Ability to delegate tasks, train others and promote team effectiveness
- Possess high regard for Quality and cGMP compliance
- Self-starter with high level of motivation
